For: LAYER-INDEPENDENT SECURITY FOR COMMUNICATION CHANNELS

AMENDMENT UNDER 37 CFR 1.116

Box AF Assistant Commissioner for Patents Washington, DC 20231

Sir:

RESPONSE

This is in response to the final Office Action dated January 28, 2000.

IN THE CLAIMS:

- 1. (THREE TIMES AMENDED) A method for providing communication protocol[-] <u>layer</u> independent security for data transmitted between a first process, executing on a first network node, and a second process, executing on a second network node, wherein the first network node and the second network node each support at least one common communication protocol <u>layer</u>, the method comprising the steps of:
- a) establishing a communication channel between the first network node and the second network node;
